Instructions to make up the 'tangle.

- 1. After colouring in the design cut around the whole shape
- 2. Crease the dashed lines face to face these are called valley folds.
- 3. Crease the diagonal lines back to back these are called mountain folds. At the same time crease along the END TABs.
- 4. Gently push the folds to match square to square you'll end up with a tubular shape.
- 5. Use a gluestick or double-sided tape and apply glue/tape to the triangles marked GLUE press together.

 Carefully fold the tube to form a hexagon, matching the A, B, C, D's.
Apply glue/tape to the end tabs and tuck into the end of the tube and press.

Have fun with your Flextangle!
